Attn: Mr Shanmuganathan (Managing Director)

REF: JURONG ISLAND ROCK CAVERN PROJECT - PHASE 1
SUB: TESTIMONIAL LETTER

We would like to congratulate Mr Shanmuganathan, Managing Director of Asia Tunnelling & Construction Pte Ltd (ATC) and his team mates for their successful completion of Jurong Rock Cavern (JRC) project Phase 1.

Hyundai Engineering & Construction Co Ltd was awarded as the main contractor for the JRC project who has in turn appointed ATC as Blasting Consultant and Explosives Storage Management service provider for the said project. We, Orica Singapore Pte Ltd, the sole supplier of explosives products and bulk delivery system for the project, are very pleased that we had worked very closely with ATC as a joint-operation partner to deal and provide on-site services for the entire bulk explosives blasting operation on Jurong Island from 01 Dec 2009 to 30 Jun 2014. Such joint-operation was completed without any major incident and/or accident during this contract period.

We are pleased to certify that ATC's blasting crew had professionally handled and used the following explosives products in a safe and efficient way throughout the contract period for Hyundai E&C :

1. Gold-T Ammonium Nitrate Emulsion
2. Senatel packaged explosives
3. Exel LP/MS detonators
4. Cordtex detonating cords
5. Dynadet electric detonators

We would also like to congratulate ATC's blasting crew whose names are mentioned below for their conscientious works and contribution to the JRC project
